

Pogo 3 N°928 - SURICATE

75,000 EUR

Shipyard departure February 2017

Suricate is fully equipped and ready to race this year's minitransat. Due to my personal situation I will not be able to race it so this makes an excellent buy opportunity.

Suricate has been actively sailed and optimized over the last year so you have a guarantee that it is in the best shape possible and that you can start racing at 100% performance from the first day.

A lot of money has been spent in having the best gear. No compromise has been made and every weared piece of equipment that could lead to issues has been changed.

Full insurance for racing until 2026.

Palmares

[2022] Solo Med - 10th / 30

[2023] 100 Milles entre illes - 1st / 15

[2023] Solo Med - 1st / 15

PICTURES – EXTERIOR

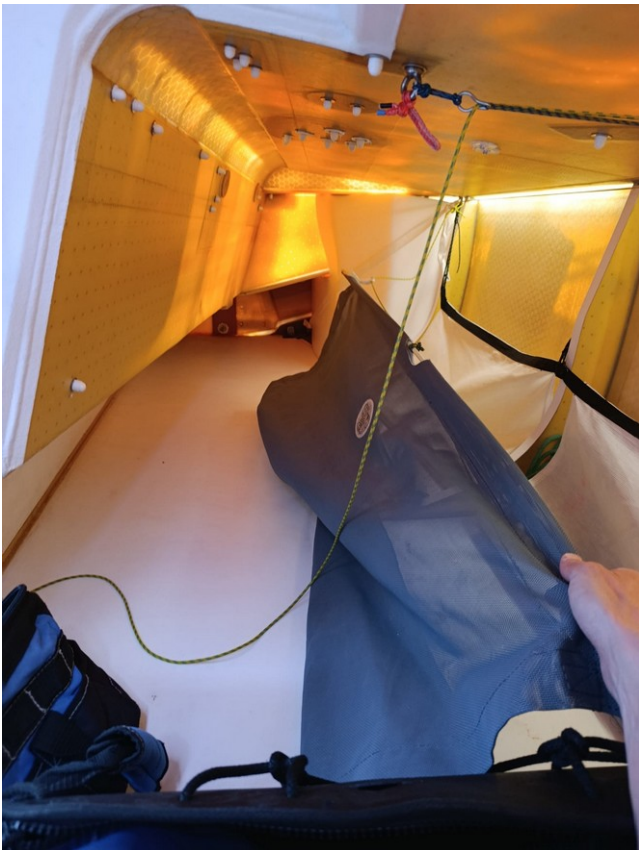

Girls love Suricate

PICTURES – INTERIOR

General view

Stacking nets with very simple solution on both sides.

Internal instruments panel with matsutec (GPS + AIS) and gyrographic.
2x 60L ocean outils matos.
Jetboil.
Toolbox.
Several typhoon dry bags.

Very clean electronics panel installation.
Built-in timer / alarm with speaker.
VHF exciter to listen VHF outside.
Victron battery monitor.
USB and 12v charger.

[illegible]

Epirb

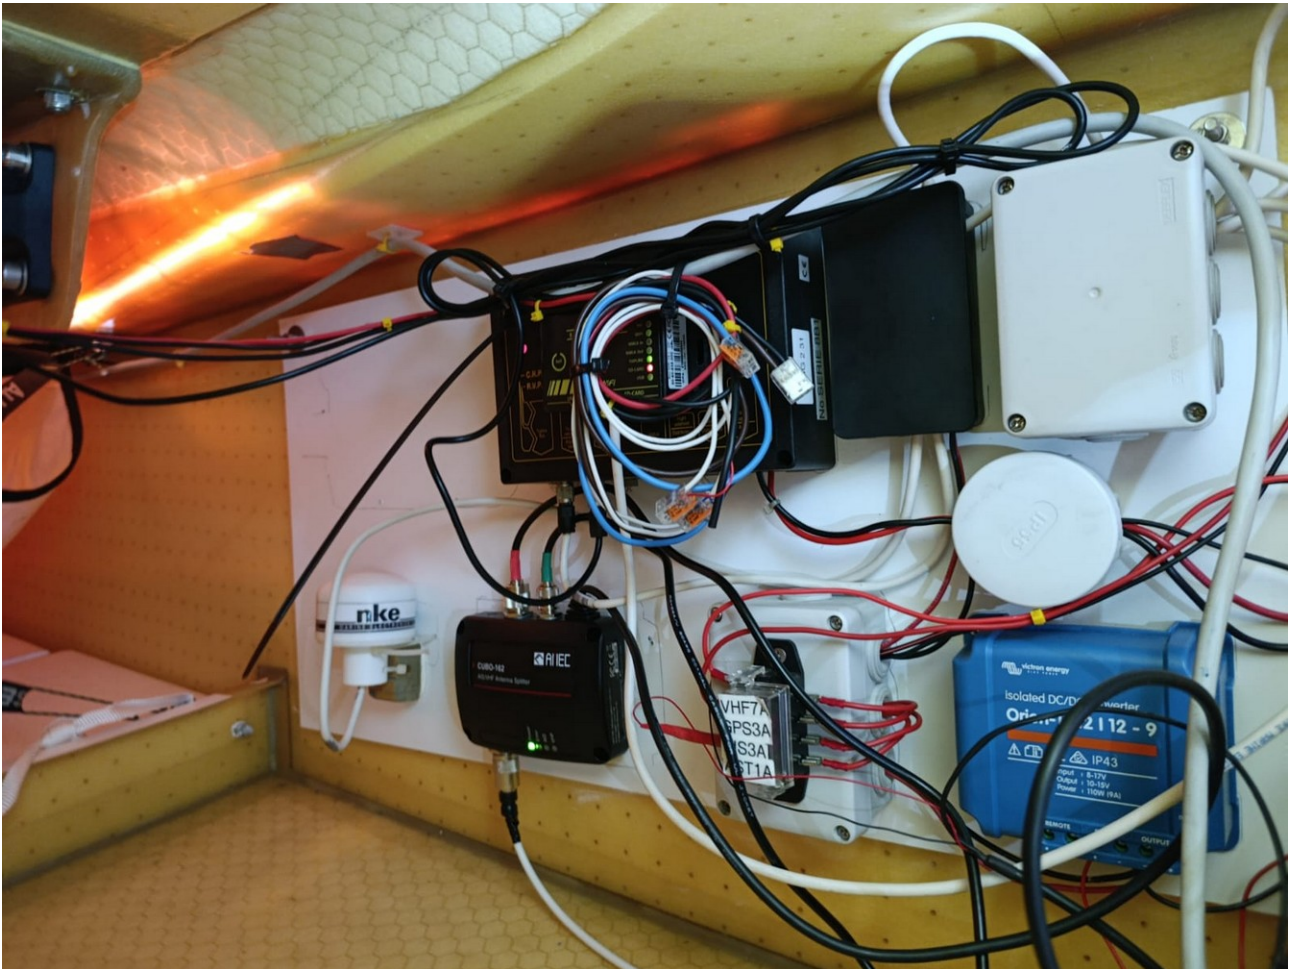

Custom made batteries, <6kg each (40 watts brand). Enclosed in epoxy, which is in turn enclosed in official 40watt box. This box is enclosed inside the white/yellow boxes of the picture. So maximum safety, minimum weight :)

There is also a plastic to cover electronics from unexpected water splashes.

Electronics panel. Very clean and dry. Well maintained.

Solar panel regulators.

Clean electrical installation with cables behind the bulkhead.

[illegible]

Additional safety and personal equipment.

Class legal life jackets with full equipment (whistle, light, sprayhood, harness, etc).

Spinlock harness with line.

2x TPS

fog horn

fire blanket

rigging cutter

water bailer

drag anchor

flags

barometer

etc

Oar + hook + rudder cleaner
Special stick to clean keel from algae
Pipe to fill water containers with seawater
